

SmartScreen

Modernize your meetings

Bring your team together with an
interactive SKYSITE SmartScreen

SmartScreen

Make meetings more productive

with a SKYSITE SmartScreen - a giant interactive touch-computer that enables you to share plans, files, and connect in a collaborative way.

The SKYSITE SmartScreen is an outstanding tool to significantly improve your meeting productivity. Your content is displayed larger-than-life enabling tremendous improvements in interaction and collaboration.

Bring up a file on screen, work on it collectively, agree to next steps and an action plan, and then send notes, with pictures, all from the SmartScreen.

Smarter Collaboration

Our touch-based SmartScreens enable teamwork by adding collaboration capability to all your applications.

Draw, mark-up, and call-out on top of BIM models, videos, hyperlinked drawing sets and estimating software. You can even markup over externally connected iOS, Android and other devices.

Video Conferencing is simple with support for all the standard Windows based communication tools. Your teams will be able to connect like never before.

Intuitive Technology

4K resolution, 20-point touch-screen controls, and a powerful PC

No need to huddle around a physical drawing or fuss with cables during a presentation

Remote team members can easily collaborate

Hardware Built for Hard Hats

Our SmartScreens come in various sizes and are equipped with construction-grade impact resistant anti-glare glass, heavy duty stand, Windows 10 PRO OS, Intel Core i7 CPU, 32GB RAM, 256GB SSD, built-in speakers, bluetooth and WiFi.

Intuitive interaction and annotation with 20-point touch and control

Spectacular Ultra-HD 4K resolution

Smarter collaboration with Note whiteboard and document markup software

Wireless screen sharing from your mobile device or tablet

Multi USB and HDMI inputs; with Windows, MacOS and Android compatibility

Powerful productivity with an Intel® Core i7 CPU and quad core processor

Microsoft Windows 10 operating system

Key Features

- 32GB of RAM for enhanced speed and performance
- 256GB SSD hard drive for ultra-fast storage and accessibility
- Widescreen LED display with 178° viewing angle
- Accelerated graphics
- Integrated WiFi® and Bluetooth®
- Built-in stereo speakers
- Whiteboard and document markup software included
